

NE 32ND AVENUE DRAINAGE IMPROVEMENT PROJECT

Expect Temporary Lane Closures

The City of Fort Lauderdale is proactively preparing for the future by strengthening local infrastructure. As part of this effort, plans are underway to implement stormwater improvements to prevent tidal flooding on NE 32nd Avenue.

This project is scheduled to start the week of August 22nd and be completed by the end of September 2016.

The following improvements are planned to be installed to reduce stormwater flooding:

- Three tidal valves
- New watertight manhole covers
- Associated infrastructure

Temporary lane closures will be in effect during construction. Local access will be maintained, but motorists should expect delays.

We appreciate your patience as we strive to fulfill the community vision by creating “The City You Never Want to Leave.” If you have questions, please call the City’s 24-Hour Customer Service Center at 954-828-8000.
