<a href="#">thompson pump</a>		\$59,980.00
Bid Contact	JERRY GOLDEN <a href="mailto:jgolden@thompsonpump.com">jgolden@thompsonpump.com</a> Ph 800-767-7310 x4109	Address P.O. Box 291370 Port Orange, FL 32129
Vendor Code	00004056	
Bid Notes	Please be advised of the following:  The fuel tank has a capacity of 100 gallons.  Our model spec sheet will not load on this page, therefore I cannot submit our most recent model specification sheet. (I have tried to submit as much detailed spec. information as the site would allow.)  The pump that is being bid is the same type of pump that is currently being used by the City, less the canopy/sound-attenuated enclosure, with the same engines. (This should allow for ease of spare parts availability, maintenance, and use. However, these pumps are wet-prime units that do not have a vacuum pump or compressor, as specified.)  The engine being specified is the John Deere 4045D.  The duty point specified should have included the suction lift, as that is truly necessary in pump selection & pump specification.  We are making no major exceptions and will build the unit as close as possible to the specifications listed herein.
