Enhancing Flood Resilience In Fort Lauderdale **YOU'RE INVITED**

**The City of Fort Lauderdale
wants to hear from you!**

Please join us at the upcoming public outreach meeting for a presentation detailing the City's **Fortify Lauderdale** program and future stormwater improvements in your neighborhood. During this first meeting, the City's planning and design team requests your participation to provide valuable insight and data to better understand flooding in your neighborhood. Your community will have an opportunity to detail your specific concerns, ask questions, and know what to expect in the coming months.
