

Protect your family against MOSQUITO DISEASES TIP, TOSS, TREAT!

Mosquitoes can develop in any standing water that's present for more than five days. Reduce the mosquito population around your home and property. Eliminate all standing water and debris.

Drill holes:

- In the bottom of tire swings
- Garbage cans
- Recycling bins

Tip standing water from:

- Flower pots
- Buckets
- Pool toys
- Pet dishes
- Wheelbarrows

Turn over and drain:

- Kiddie pools
- Pool covers
- Garbage cans

Fix or replace:

- Broken window screens
- Leaky spigots and faucets

Unclog and drain:

- Rain gutters
- Flat roofs
- Roof drains

Flush out plants that hold water, once per week:

- Bromeliads
- Tree holes
- Palm fronds

Treat areas that hold water with larvicide:

- Bird baths
- Rain barrels
- Water gardens
- Cisterns

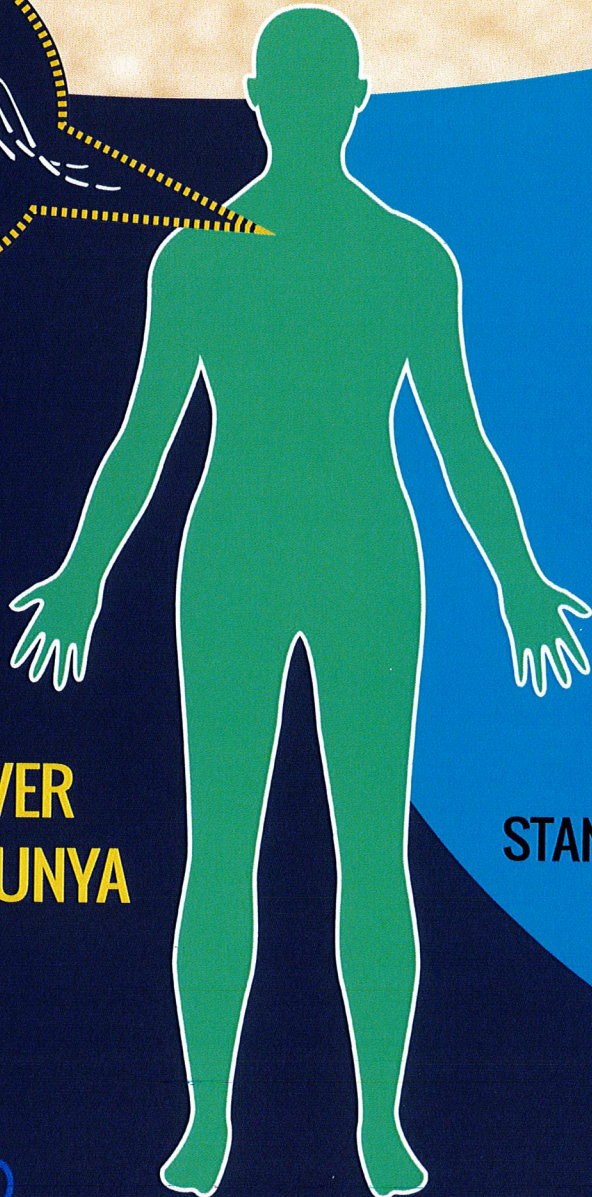

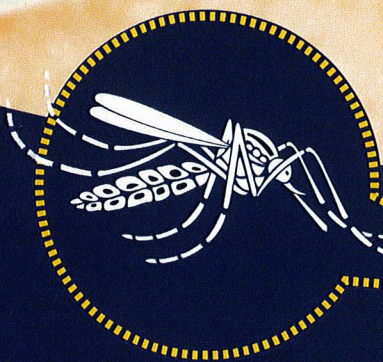

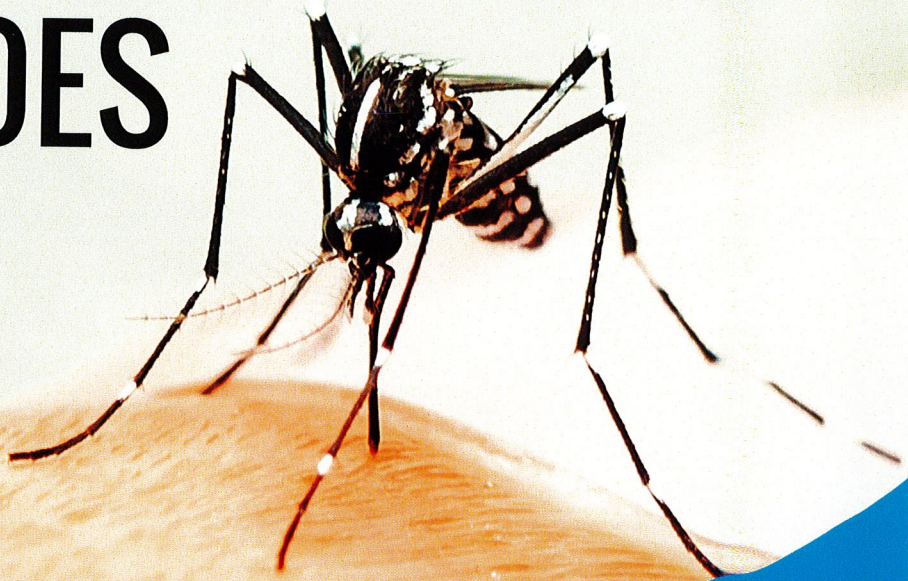

MOSQUITO CONTROL SECTION

A SERVICE OF THE BROWARD COUNTY BOARD OF COUNTY COMMISSIONERS

1,000 copies of this public document were promulgated at a cost of \$327.00, \$0.194 per copy to inform the public about eliminating mosquito habitats to prevent mosquito-borne illnesses.
