MGT Consulting Group is conducting two public engagement meetings to gather input from business owners for the City of Fort Lauderdale's Disparity Study. The study is designed to assess the City's efforts to ensure local minority and women-owned business enterprises (M/WBE) have equal access to contracting opportunities.

The purpose of the meetings is to obtain comments and feedback on the following items:

- Ease of identifying City contract or subcontract opportunities.
- Recommendations for improvements to the existing M/WBE Program, and bid/proposal procurement policies and procedures.
- Successes or barriers encountered when doing business or trying to do business with the City or its primes, (i.e., bonding, insurance, disparate treatment, etc.)

We welcome and encourage your participation. RSVP for either time [here](#).
