Page 2: Board of Adjustment (BOA) Criteria for Variance Request

Answer All questions on this page and attach narrative.

SPECIFIC REQUEST: State the specific request according to the ULDR or other provisions of the Code.

Please refer to attached narrative.

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12. A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

Please refer to attached narrative.

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

Please refer to attached narrative.

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

Please refer to attached narrative.

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

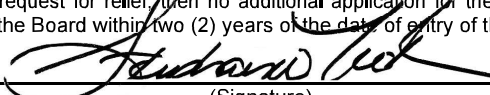

Please refer to attached narrative.

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

Please refer to attached narrative.

AFFIDAVIT: I, Stephanie J. Toothaker, Esq. the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order of the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

BOARD OF ADJUSTMENT

C/O MOHAMMED MALIK, ZONING ADMINISTRATOR/LIAISON

CITY OF FORT LAUDERDALE

100 NORTH ANDREWS AVENUE

FORT LAUDERDALE, FL 33311

RE: Variance Request for 2657 NE 37th Drive, Fort Lauderdale, FL 33308

Dear Honorable Members of the Board of Adjustment:

I represent Diana and Russell Kitchen (the “Applicants”), owners of the real property located at 2657 NE 37th Drive, Fort Lauderdale, Folio No. 4942-24-07-1470 (the “Property”). Applicants respectfully request an after-the-fact variance from ULDR Section 47-19.2.P – Free Standing Shade Structures as described below.

1. PROJECT DESCRIPTION

The Property comprises 0.13 acres (5,870 square feet) and is located within the Coral Ridge Country Club Estate neighborhood. The Property is zoned Residential Single Family/Low Density (“RS-4.4”) and has an underlying land use designation of Low Residential. The Property has a one-story single-family residence. Freestanding shade structures with outdoor kitchens are permitted as an accessory structure to a principal building pursuant to the City’s interpretation of ULDR Section 47-19.2.P dated August 4, 2015 attached hereto as **Exhibit 1**.

The Applicants obtained a building permit for the construction of a freestanding shade structure with outdoor kitchen (Building Permit No. PM-18110650). In the process of submitting a revision to obtain an after-the-fact building permit for the built-in cabinetry with countertops and kitchen appliances on three sides of the accessory structure, it was noted that the City allows a one-side only partial enclosure with maximum 42-inch high cabinetry.

The accessory structure is 13 feet tall measured from the ground to the top roof ridge. Three sides are partially enclosed with 36-inch high built-in cabinetry with countertops and kitchen appliances. The accessory structure complies with all required setbacks as depicted in the survey included in this submittal.

2. REQUESTED VARIANCE

ULDR Section 47-19.2.P states that:

“...freestanding shade structures may be permitted when accessory to residential uses in the required rear yard but no closer than five (5) feet from the rear property line except where a parcel is abutting a waterway, where they shall be no closer than ten (10) feet from the waterway as measured in accordance with Section 47-2.2.R. **Freestanding shade structures shall be open on all sides and shall be no greater in height than twelve (12) feet measured from the ground to the top of the structure**, and shall be limited in size to a maximum of two hundred (200) gross square feet in area for that portion of the structure protruding into the required yard area. No more than one (1) freestanding shade structure per plot shall be permitted in the required rear yard.”

Stephanie J. Toothaker, Esq.

land use development political strategy procurement

However, pursuant to the City's interpretation, which reevaluated the aspects of the zoning code in relation to the Code's intent, an outdoor kitchen incorporated into a shade structure is permitted "[g]iven that South Florida has a favorable climate for outdoor activities and the clear intent behind the section indicated above." The zoning interpretation provides that:

"An outdoor kitchen/BBQ may incorporate electrical and plumbing for an outdoor sink, refrigeration and gas lines (or similar uses commonly included in an outdoor kitchen) and shall be limited to a maximum height of forty-two (42) inches. The height limitation does not include the lid of the BBQ or grill. A typical grill or BBQ shall be permitted, however no accessories shall be permitted that exceed the height of a typical BBQ or grill lid. An outdoor kitchen/BBQ may be incorporated into a shade structure as long as no one side of the structure is enclosed, and all sides remain open to the outside."

We have been advised by the City that the City allows a one-side only partial enclosure of an outdoor kitchen with maximum 42-inch high cabinetry.

As such, we are requesting a variance to allow a freestanding shade structure with outdoor kitchen to be partially enclosed on three sides with 36-inch high built-in cabinetry where the Code allows only a one-side partial enclosure with maximum 42-inch high cabinetry. Additionally, we are requesting a variance to allow a maximum height of 13 feet where the Code allows a height up to 12 feet measured from the ground to the top of the structure.

3. CRITERIA FOR APPROVAL OF BOA VARIANCE REQUEST (SEC. 47-24.12.A.4)

- a. That special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

RESPONSE: The freestanding shade structure with outdoor kitchen is permitted pursuant to the City's zoning interpretation of ULDR Section 47-19.2.P. The interpretation states that "[a]n outdoor kitchen/BBQ may be incorporated into a shade structure as long as no one side of the structure is enclosed, and all sides remain open to the outside." The structure is partially enclosed in those areas where built-in cabinetry is provided that allows for full use of the kitchen appliances and effectively provides and conceals all electrical, plumbing, and refrigeration equipment. The cabinetry also provides the proper surface area for storage and food preparation purposes. We believe that the partial openings still meet the intent of the Code while allowing for full usage of the outdoor kitchen. The grant of this variance is necessary to avoid practical difficulties or unnecessary hardship and enable the Applicants to maintain the freestanding shade structure with outdoor kitchen.

- b. That the circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and

RESPONSE: The accessory freestanding shade structure with outdoor kitchen is located on private property and will only affect the subject property. Approval of the variance would not alter the character of the neighborhood or be detrimental to the public welfare.

- c. That the literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

RESPONSE: The grant of this variance is necessary to avoid practical difficulties or unnecessary hardship and enable the Applicants to maintain the freestanding shade structure with outdoor kitchen. Given South Florida's favorable climate, freestanding shade structures with outdoor kitchens and seating are common and enjoyed by many other property owners in the Coral Ridge Country Club neighborhood and RS-4.4 zoning district. The adjacent properties have similar accessory structures which include outdoor kitchens, preparation surfaces, and seating.

- d. That the unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

RESPONSE: The City's zoning interpretation provides that "an outdoor kitchen/BBQ may be incorporated into a shade structure as long as no one side of the structure is enclosed, and all sides remain open to the outside". We believe the accessory structure meets the intent of this interpretation by providing three partially opened sides and one fully open side in order to "remain open to the outside" while the built-in cabinetry is intended to provide adequate concealment, storage, and installation of all electrical, plumbing, and refrigeration equipment associated with the outdoor kitchen appliances.

- e. That the variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

RESPONSE: The grant of this minimum variance is necessary to avoid practical difficulties or unnecessary hardship and to enable the Applicants to maintain the existing structure. Such an accessory structure may not be essential to the use of a residentially-zoned property, but the structure is meant to meet the intent of the City's code by providing three partially opened sides and one fully open side. The accessory structure is within the Property and complies with the required minimum setbacks. The accessory structure is designed to complement the principal building and is in continuity with the surrounding neighborhood character. Freestanding shade structures with outdoor kitchens are allowed in single-family zoning districts and are harmonious with the Coral Ridge Country Club Estate resident's lifestyle. Therefore, the impact on adjacent properties is *de minimus*.

We believe denial of this request would create an unnecessary hardship under the facts of this case. Thank you for your consideration and should you have any questions, please do not hesitate to let me know.

Respectfully,

/s/ Stephanie J. Toothaker

Stephanie J. Toothaker, Esq.

MEMORANDUM

Date: August 4, 2015

To: Urban Design & Planning Staff

From: Anthony G. Fajardo, Zoning Administrator

Subject: Section 47-19, Accessory Uses, Buildings and Structures

Topic: Outdoor Kitchens/BBQ

Note: This interpretation rescinds the previous interpretation dated December 18, 2002, Subject: Interpretation – **Sec. 47-19.2.P** – Free Standing Shade Structures

Zoning Interpretation:

In recent years there have been several requests for BBQ grills/outdoor kitchens as well as fire pits. Often these are in conflict with the zoning regulations because the principal building is constructed to such an extent that side and rear yard setbacks are maxed out and space is not available. While the intent of the yard setbacks is to control the size of development and to mitigate such development on neighboring properties it is not intended to create a situation where the remainder of the yard becomes unusable. This is evidenced by Section 47-19, Accessory uses, buildings and structures, which permits certain accessory structures to be located within the yard setback subject to certain criteria.

Under specific language in Section 47-19.2, *Accessory buildings, structures and equipment, general*, certain accessory structures are permitted to encroach into the side and rear yards with limitations on area and height. However, as no zoning code can address every situation and permutation of each site and as uses evolve over time it is necessary to reevaluate the aspects of the zoning code in relation to the intent. Given that South Florida has a favorable climate for outdoor activities and the clear intent behind the section indicated above please accept this interpretation regarding the following:

1. Outdoor Kitchens/BBQ:

Whereas Section 47-19.2.P, *Freestanding shade structures* permits structures such as gazebos, tiki huts or trellises no closer than 5-feet from the rear property line or 10-feet when abutting a waterway; and,

Whereas Section 47-19.2.P, *Freestanding shade structures* permits these shade structures to encroach in the rear yard when open on all sides and no more than two hundred (200) gross square feet in area; and,

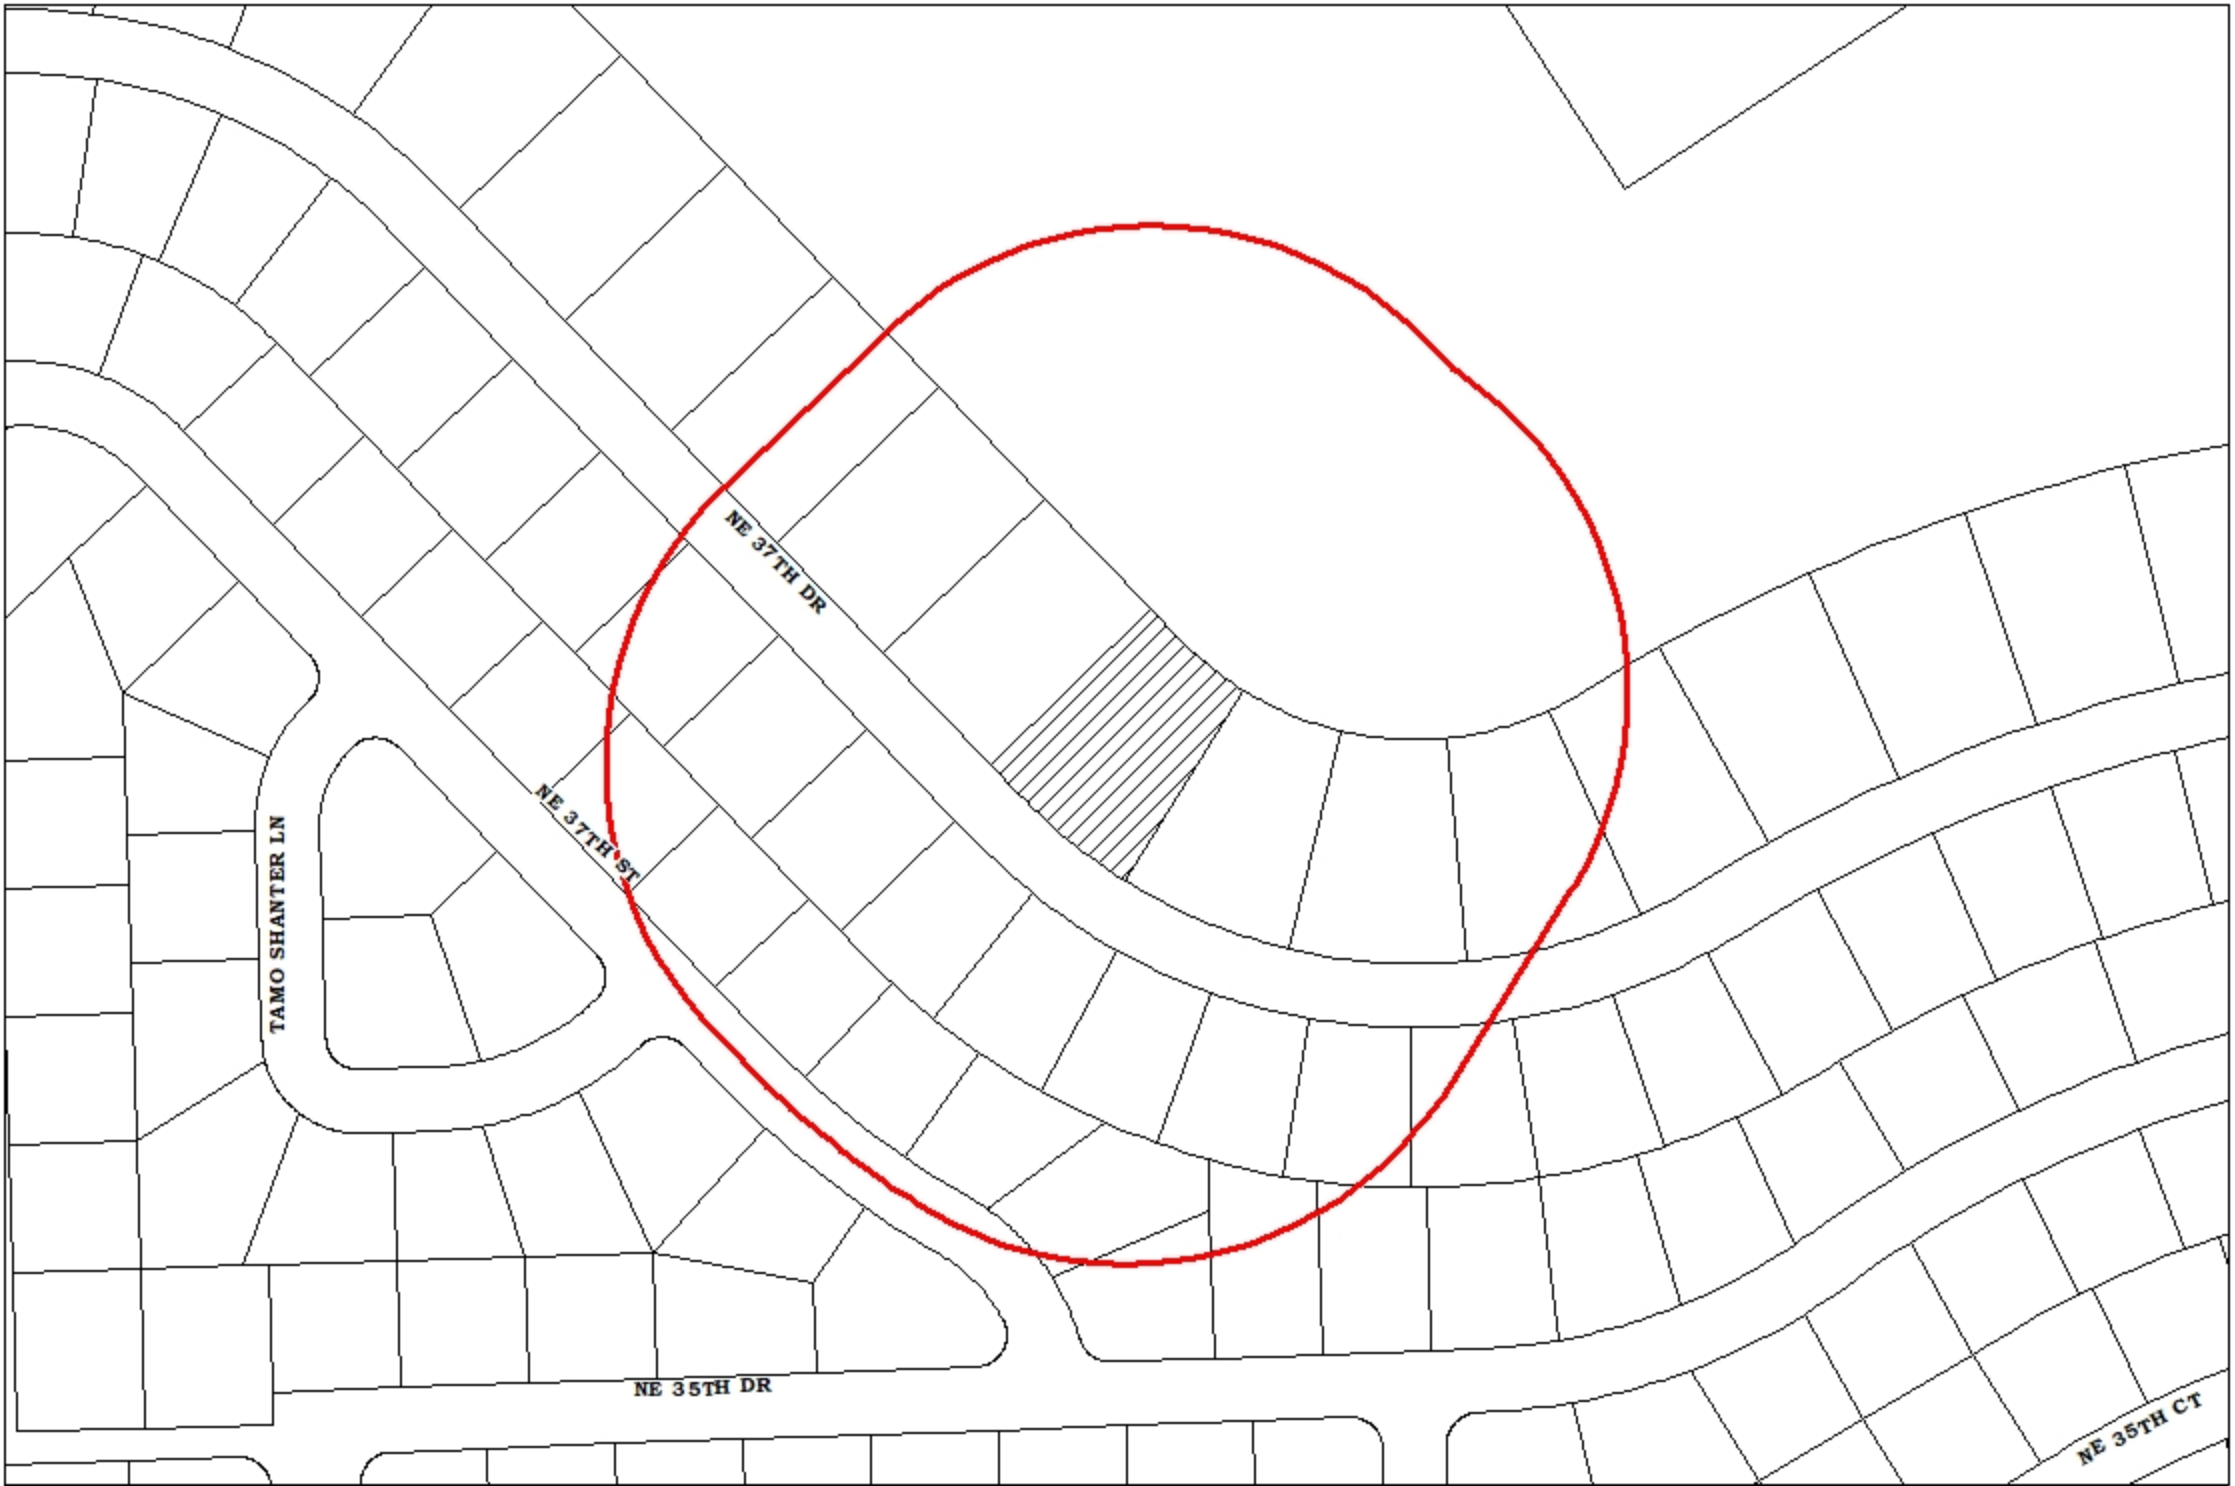

Whereas Section 47-19.5, *Fences, walls and hedges* permits an opaque fence or wall up to six (6) feet six (6) inches when located a minimum of ten (10) feet from the waterway; and,

Whereas an outdoor kitchen/BBQ have less of an impact than shade structures from a bulk and massing standpoint and tend to be lower than a fence or wall; and,

Whereas an outdoor kitchen/BBQ when incorporated into a shade structure would not enclose the shade structure an outdoor kitchen/BBQ shall be permitted subject to the following standards:

- An outdoor kitchen/BBQ shall be permitted to encroach into the rear yard five (5) feet from the rear property line or ten (10) feet into the rear property line when abutting a waterway. The maximum square footage permitted to encroach shall be no greater than two hundred (200) square feet. An outdoor kitchen/BBQ may incorporate electrical and plumbing for an outdoor sink, refrigeration and gas lines (or similar uses commonly included in an outdoor kitchen) and shall be limited to a maximum height of forty-two (42) inches. The height limitation does not include the lid of the BBQ or grill. A typical grill or BBQ shall be permitted, however no accessories shall be permitted that exceed the height of a typical BBQ or grill lid. An outdoor kitchen/BBQ may be incorporated into a shade structure as long as no one side of the structure is enclosed, and all sides remain open to the outside.

Sec. 47-19.2.P. Free Standing Shade Structures

(P.) Freestanding shade structures. Freestanding shade structures (such as a gazebo, a tiki hut, or a trellis) may be permitted when accessory to residential uses, in the required rear yard but no closer than five (5) feet from the rear property line except where a parcel is abutting a waterway, where they shall be no closer than ten (10) feet from the waterway as measured in accordance with Section 47-2.2.R. Freestanding shade structures shall be open on all sides and shall be no greater in height than twelve (12) feet measured from the ground to the top of the structure, and shall be limited in size to a maximum of two hundred (200) gross square feet in area for that portion of the structure protruding into the required yard area. No more than one (1) freestanding shade structure per plot shall be permitted in the required rear yard.
