Page 2: Board of Adjustment (BOA) Criteria for Variance Request

Complete this page and an attached narrative.

SPECIFIC REQUEST: State the specific request according to the ULDR or other provisions of the Code.

See attached Narrative

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12, A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

See attached Narrative

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and

See attached Narrative

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

See attached Narrative

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

See attached Narrative

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

See attached Narrative

AFFIDAVIT: I, Jason S Crush the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order or the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

**THRIVE EAST
NARRATIVE
Variance Request
710-726 NW 5 Avenue
Fort Lauderdale, FL 33311**

Background:

Thrive East is a rehabilitation project converting once dilapidated warehouses to a multi-use art district located at 710-726 NW 5 Avenue. The property is located in the City's B-3 Light Industrial/Heavy Commercial zoning district and is mostly surrounded by industrial uses. The property owner seeks a variance to Section 47-19.2.Z.1 of the ULDR to allow an alternative to strict compliance with the City of Fort Lauderdale's ("City") rooftop screening requirements.

Thrive East is being developed with Thrive West – which is across the street from Thrive East and both properties work in conjunction to create an "Art District" in this industrial area.

Thrive East is comprised of single-story buildings with artistic murals around the entirety. The change of use and renovation was approved by the City's Development Review Committee ("DRC") on November 13, 2020. Roof top equipment screening was not requested by the DRC at that time.

The intention for the project is to create an art district feel for multiple uses providing vibrant murals and an artistic feel. The owner's intention for the rooftop equipment is to complement the building murals with artistic mini-murals on the equipment in keeping with the murals on the facades of the buildings. This project is located in the City's B-3 (Light Industrial) zoning district and the "Industrial" turned Artistic feel is the motif that is desired.

Code Provision:

Specifically, Section 47-19.2.Z.1 provides:

1. *Roof mounted structures such as air conditioners and satellite dish antennae shall be required to be screened with material that matches the material used for the principal structure and shall be at least six (6) inches high above the top most surface of the roof mounted structure. Vent pipes, skylights, cupolas, solar collectors and chimneys shall not be subject to this provision.*

Variance Criteria:

4. *Criteria—Variance. A variance from the terms of the ULDR shall be granted only upon demonstrating a unique hardship attributable to the land by proving by a preponderance of the evidence all of the following criteria:*
 - a. *That special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and*

Response: The purpose of Sections 47-19.2.Z.1 in the ULDR is to mitigate the visibility of rooftop mechanical equipment. Here, visual impact of muralized rooftop mechanical equipment is what is desired to complement the overall “vibe” of the entire project. Providing generic screening would detract from the intended aesthetic of the project.

- b. *That the circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and*

Response: Thrive East is a renovation of an existing structure in a light industrial district. Here, the screening requirements of Sec 47-19.Z.1 are being retroactively applied to this exiting building due to its change of use from industrial uses to it proposed desirable uses.

- c. *That the literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district.*

Response: In this instance, literal application of the ULDR provision would increase the mass of the buildings and thwart the intention of providing an alternative method to the screening requirement to mitigate the appearance of the equipment. Further, surrounding industrial properties have un-screened rooftop mounted equipment.

- d. *That the unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and*

Response: This unique hardship is not self-created by the applicant, nor is it the result of mere disregard for the ULDR. Rather, the property owner diligently submitted a site plan and City staff reviewed and approved the application. Further, the literal application of the ULDR would prevent the intended muralizing of the roof top equipment to create the intended look and feel of the project.

- e. *That the variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.*

Response: The variance is the minimum variance that will make possible a reasonable use of the property. The variance will be in harmony with the general purpose and intent of the ULDR, as the purpose of the code section is to mitigate mechanical equipment where hear the art mitigates the equipment by providing a cohesive look and feel to the project.
