## Page 2: Board of Adjustment (BOA) Criteria for Variance Request

Answer All questions on this page and attach narrative.

**SPECIFIC REQUEST:** State the specific request according to the ULDR or other provisions of the Code.

We are seeking to amend the existing 10' setback on the south side of the building (13 street) NW to give us a 2 foot setback on said side.

**CRITERIA:** Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12. A.4.

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and *The property is only 35' wide. This would leave us with a 20' wide house, (too narrow). We are proposing a 28' building.*

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

*This is one such property: narrow width.*

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

*A denial of this variance will almost make the property unusable.*

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

*Not self created, property was purchased like that.*

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

*The variance is the minimum.*

*AL HARVARD'S*

**AFFIDAVIT:** I, TERENCE SHANE the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order of the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

RE: 1300 NW 1<sup>st</sup> Avenue

Fort Lauderdale, Florida 33311

Narrative - CODE SEC. 47-5.32

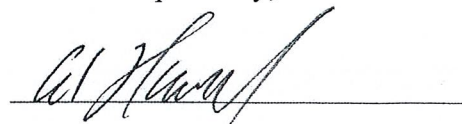

Harvard @ Shane Investments, LLC., is seeking approval to amend the existing 10' setback on the South side of the building (13 Street NW) to give us a 2 feet setback on the said side. Our uniquely exceptional hardship attributable to the land is the property is only 35' wide. This would leave us with a 20' wide house (too narrow). We are proposing a 28' wide building.

Special conditions that are peculiar to the property at issue, that clearly constitute market exceptions to other properties in the same zoning district is that this is one such property, narrow in width.

Similarly, literal application of the provisions of the ULDR, would deprive Harvard @ Shane Investment, LLC, of a substantial property right that is enjoyed by other property owners within the same zoning district. On the contrary, a denial of this variance, will practically make the property unusable. However, the unique hardship is not self-created, nor of simple disregard for the provisions of the ULDR or antecedent zoning regulations the property was purchased as such, in this manner. Furthermore, the variance is the minimum, that will make possible a reasonable use of the property and that the variance will also, be in harmony with the general purposes and intent of the ULDR. The use as varied will not be incompatible with adjoining properties or the surrounding neighborhood nor, detrimental to the public.

Please consider our request to amend the existing setback, which will allow us a 2-foot setback on the south side. Thank you for your consideration.

Respectfully,

Al Harvard
