

### HENDRICKS ISLE SEAWALL REPLACEMENT PROJECT

The City of Fort Lauderdale is working with Ebsary Foundation Co. to replace 320 linear feet of City-owned seawalls along the northern end of Hendricks Isle. Construction is expected to begin on Monday, July 11 and includes:

- constructing two new seawalls with new sheet pile and a new concrete cap
- installing new stormwater infrastructure
- restoring pavement and landscaping

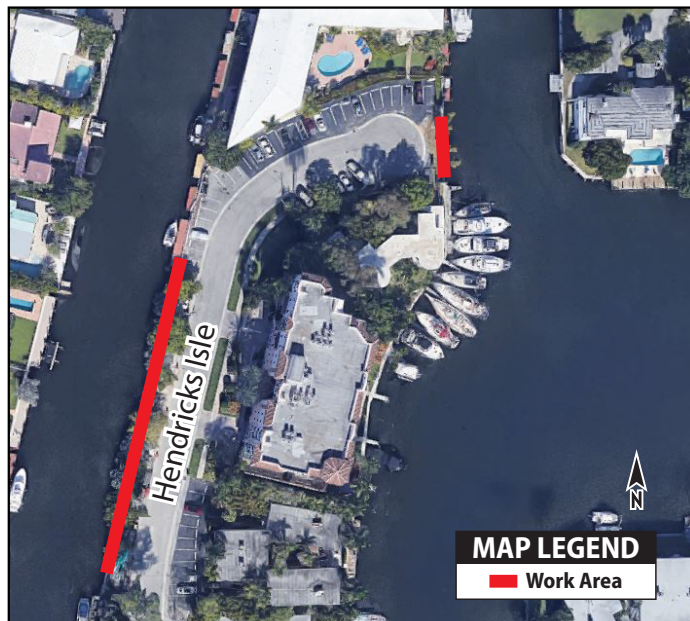

The improvements made as part of this project will help reduce tidal flooding along Hendricks Isle and make us better prepared for future king tide events and sea level rise. Crews are expected to be on site Monday through Friday from 8 a.m. to 5 p.m. Overall completion is expected in fall 2022.

#### Traffic Impacts:

Intermittent lane closures are expected along Hendricks Isle during work hours. Please follow posted signs and drive with caution in the area.

#### Vibration Monitoring:

Sheet pile installation operations are expected within the first month of construction. Vibration monitoring will be provided by the contractor and the City's inspector to prevent damage to adjacent properties. Monitoring equipment may need to be installed on private property (with owner's permission).

#### Public Meeting & Project Updates:

Neighbors are invited to participate in a public meeting to meet the project team and discuss any questions or concerns:

#### Thursday, May 26 | 5 - 6 p.m.

Join on Zoom at [ftlcity.info/hendricksisle526](https://ftlcity.info/hendricksisle526)

Dial-In at 1-646-828-7666

Meeting ID: 161 806 8759

Once construction begins, updates will be posted regularly at [ftlcity.info/hendricksislesrp](https://ftlcity.info/hendricksislesrp). We apologize in advance for any inconvenience and thank our neighbors for their continued patience as we work to replace these City-owned seawalls as quickly as possible.
