CALL

(954) 828-8000

The City of Fort Lauderdale, Broward County, and FPL share responsibility for maintaining our streetlight system. The City of Fort Lauderdale is requesting your help in monitoring our streetlight system by reporting outages to our customer service team.

For more information, please visit www.fortlauderdale.gov/streetlight.

CITY OF
FORT LAUDERDALE

REQUEST A NEW STREETLIGHT

The City of Fort Lauderdale uses energy efficient illumination throughout the city to aid in the safe and orderly movement of traffic and pedestrians. Requests for residential street lighting on local roadways will be evaluated to determine if the need is warranted as defined below. When determining lighting levels, the City will refer to the minimum standards set forth by Florida Department of Transportation.

Should a streetlight request be deemed necessary for the health, safety and welfare of the general public traveling on City Streets, the approved light will be installed as funding permits. If funds are available, priority shall be given to:

1. Traffic hazards
2. Intersections
3. Dead-end streets
4. Mid-block locations
5. Date of request

Requests will be reviewed for approval by the Parks and Recreation Department.

For more information or to complete a new streetlight application, please visit www.fortlauderdale.gov/streetlight.
