Re: Intersection Modifications for NE 15th Avenue at NE 13th Street

City staff have received numerous inquiries regarding the intersection of NE 15th Avenue at NE 13th Street. As part of the Broward MPO's Tactical Urbanism Program (BTactical), the NE 15th Avenue intersection was modified and the dedicated right turn lane from northbound NE 15th Avenue to eastbound NE 13th Street was removed.

City staff evaluated the conditions and created two concepts for potential intersection modifications. The two concepts were shared with nearby civic associations and the feedback was to advance the attached concept. The proposed concept consists of milling and resurfacing of the portion of the intersection and lane realignment to accommodate a dedicated bicycle lane and a dedicated right-turn lane along the northbound approach of the intersection.

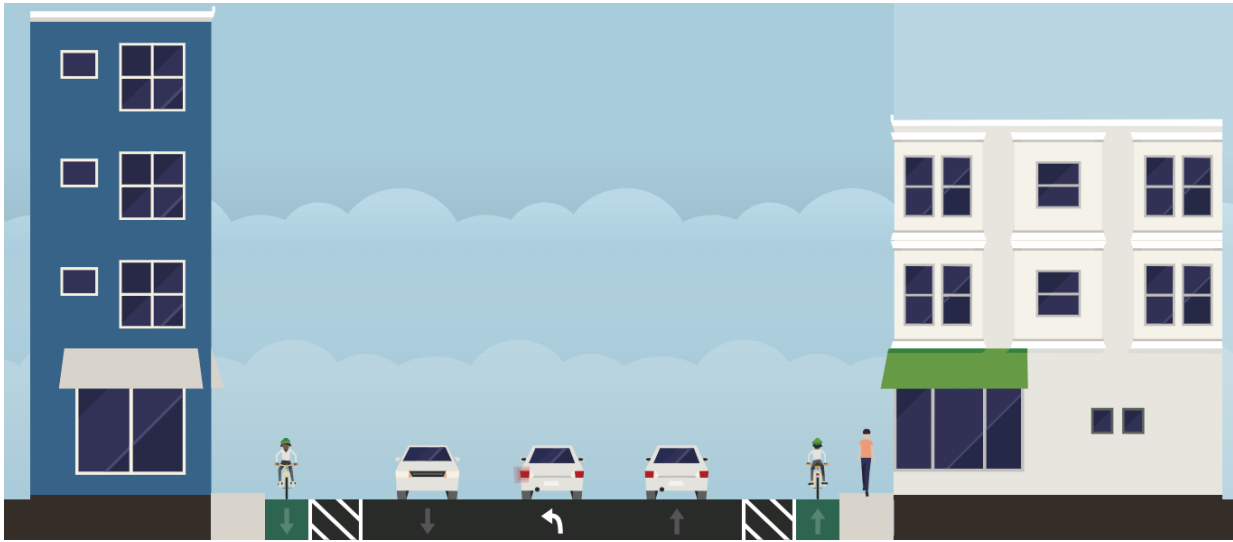

Staff plans to implement these changes which require a budget amendment to appropriate funding for the design and construction. The budget amendment is scheduled for March 2024, and design and permitting work will commence immediately afterwards.

For additional information, please contact Ben Rogers, Director of Transportation and Mobility, at BRogers@fortlauderdale.gov.
