Case Number: UDP-EV24004

**CASE COMMENTS:**

Please provide a response to the following:

- 1- Stormwater Operations does not object to the developers ask to vacate the easement at this location if there is not conflict with the existing offset of the City's outgoing 36' (RCP) stormwater gravity main conveying stormwater from the north as depicted in the stormwater utility atlas image below (STGM-11856). The stormwater atlas indicates that this 36 " gravity main runs south and connects and turns to the west at the identified nexus on its conveyance path to the point of discharge into Prospect Lake (STOF-3801).

Vacation as submitted
